THE NEW LIGHT! J. C. CULVER'S

SUPPLIES a Necessity, as well as a household haxnry and convenience. It has been in use more than two years, and is growing in favor where ever used. It makes the neatest, and in every respect, the best light. No offensive odor, no smoke, no grease to soil garments, no danger from explosion in lamps, does not injure weak eyes, gives a softer light than Kerosupe, can be used with or without chimneys, can be burned in any lamp with the trifling expouse of changing burners. It is cheaper than any light, except daylight.

There never was a portable light that required so little work to keep it in order. All who use it will endorse what we say.

To Whom it may Consern; To Wham it may Consers:

This is to certify that after using in my house the Petroleum Fluid and putting the same to the most rigid and thorough test. I have no hesitation: a saying that I consider the same, safer and cheaper, than any Fluid, or Gas, that I have used for lighting rooms, and further say that the light produced by t for brilliancy and beauty unsurpassed, and therefore cheerfully commend the same to all desiring a light in which there is safety and beauty combined.
